About us

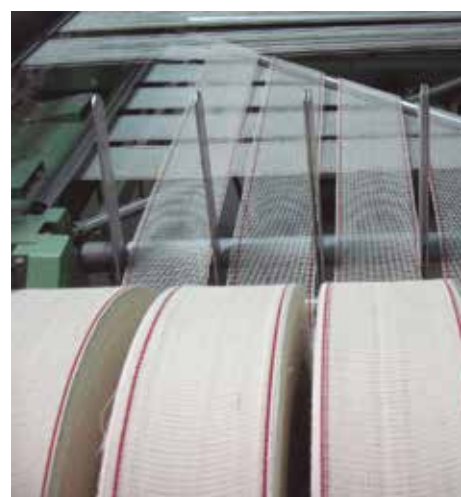

Calvo Izquierdo designs and manufactures bandages and medical textiles. Founded in 1956, we are a family owned company located in Requena (Valencia region) Spain.

Our goal is to market high quality products that fulfill the needs of healthcare professionals and final users alike. In order to assure continued product excellence, we have assembled an outstanding team and employ modern facilities and production technologies.

We have a fully integrated production process that comprises all steps from yarn to the finished bandage. All the company's activities are audited and certified under European legislation as well as international standards ISO-9001 and ISO-13485. Since our earliest days, we have demonstrated an innovative spirit with a constant focus on R&D and customer satisfaction.

Our production portfolio includes products such as cohesive bandages, crepe bandages, paper bandages and elastic bandages. We market all these bandages under our brands VENDARI and VENDAFAR. At the same time we also cooperate with international companies manufacturing in accordance with their technical specifications or private label.
